

Apartments for rent Havana

We all know these are difficult days and there is no much money left for holidays and leisure in our pockets. So we have to find cheap alternatives - either that or stay at home and don't go any where. If you are thinking of going to [Cuba on Holidays](#) then I am going to give you a hint on how to cut down on the cost.

You can find hotels for as cheap as \$14.00 per person per night in Cuba. As I mentioned before there are not many of these hotels and because they are so cheap they are fully booked all year round. If you are traveling to Cuba on a tight budget then why not to take advantage of the excellent prices that Casas Particulares in Cuba offer. Casas Particulares is the term used locally for Private Rentals in Cuba. These properties have a special license from the government which allows them to accommodate Tourist.

As you probably know Cuba is a communist country with very strict regulations when it comes to private business. The government has imposed a series of limitations to the landlords that some find a bit annoying.

Tourist lodgers in Casas Particulares in Cuba have to share the house or apartment with a Cuban family. This present a problem for those who want to be completely independent but it could also be a good idea if you really want to get to know the Cuban way of life.

So what I am trying to say is that staying in Casas Particulares in Cuba is a good idea for cutting down the cost of your holidays to Cuba but is not for everybody. This type of accommodation is suitable for people that have no problem sharing a house with a Cuban family.

There are very few houses, villas and apartments that risk rent on an independent basis. You will not find this advertised openly on the web as it is illegal according to the Cuban laws yet you can find few of them especially in Havana. If you want to stay independent on a private house in Cuba the best thing to do is get in touch with the landlords or the webmasters of websites advertising vacation rentals in Cuba.
